

QuickCam® Pro 4000

Digital Zoom • Microphone • PC • Pro Editing Software • USB

Express your creativity like a pro! Use our digital zoom to move in on the action and capture high-quality videos and megapixel photos. Then edit those images with our studio quality editing software to make your web albums even better. It's the creative way to get closer.

Video enthusiasts get ready... our new QuickCam was made just for you. By combining a digital zoom, built-in microphone, and high-quality VGA CCD sensor, the QuickCam Pro 4000 lets you express your creativity like a pro.

Now you can create amazing videos and shoot 1.3 megapixel still photos with ease. Or add live video to Yahoo! Messenger, MSN® Messenger, and AIM while you chat. You may also make live video calls, set up a video monitoring system, or send photos and video along with your email. You can even add video to your eBay auctions. Enhance the way you communicate and animate your life.

- Enjoy 640x480 video resolution with the advanced VGA CCD sensor and high-quality 1.3 megapixel photo resolution
- Add live video to Yahoo!® Messenger with integrated software.
- Use Logitech's free IM Video Companion™ to add live video to MSN® Messenger and AOL Instant MessengerSM
- Create movies like a pro with studio-quality MGI® editing software
